

Color me safe

Let's visit the

Family!

Safe

When food's on the stove and it's time for a meal, cooking with care is part of the deal.

When one of the kids is at home and sick, an adult measures the right dose of medicine to help do the trick.

The Safe Family tests their smoke alarms twice a year, so if ever there's a fire, they'd be heard loud and clear.

Under the swing set, there's something soft like sand or wood chips, you, see? To keep the kids from getting hurt, like scraping a knee.

No matter the distance, be it near or far,
the right safety seats keep kids safe in the car.

When it's time to jump in the water and stay cool,
an adult always watches the kids at the pool.

And out on the open water, at the beach or on a boat,
life jackets help keep everyone afloat.

The kids remember - mom and dad have always said,
“Whenever you ride a bike, wear a helmet on your head.”

And they know there's always time - it's never too short -
to put the right gear on for every sport.

The Safe Family sure knows what to do
to keep themselves safe - and now I do, too!
