

The Fish and Chip Shop Chronicle

It is time to eat! I am
starved. I think that I will try
the fish and chip shop. I
have not been there yet.

Here it is. Let's go inside.
It is very clean. It has been
around for a long time. It
must be good.

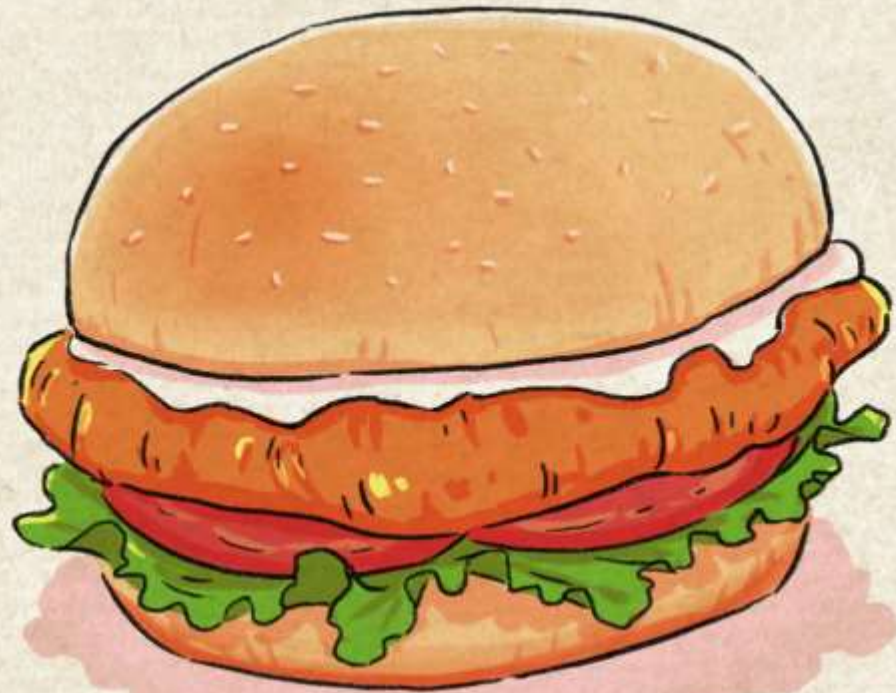

Smell that! What terrific fish and chips! I cannot wait to try it. I will go and make an order for us all.

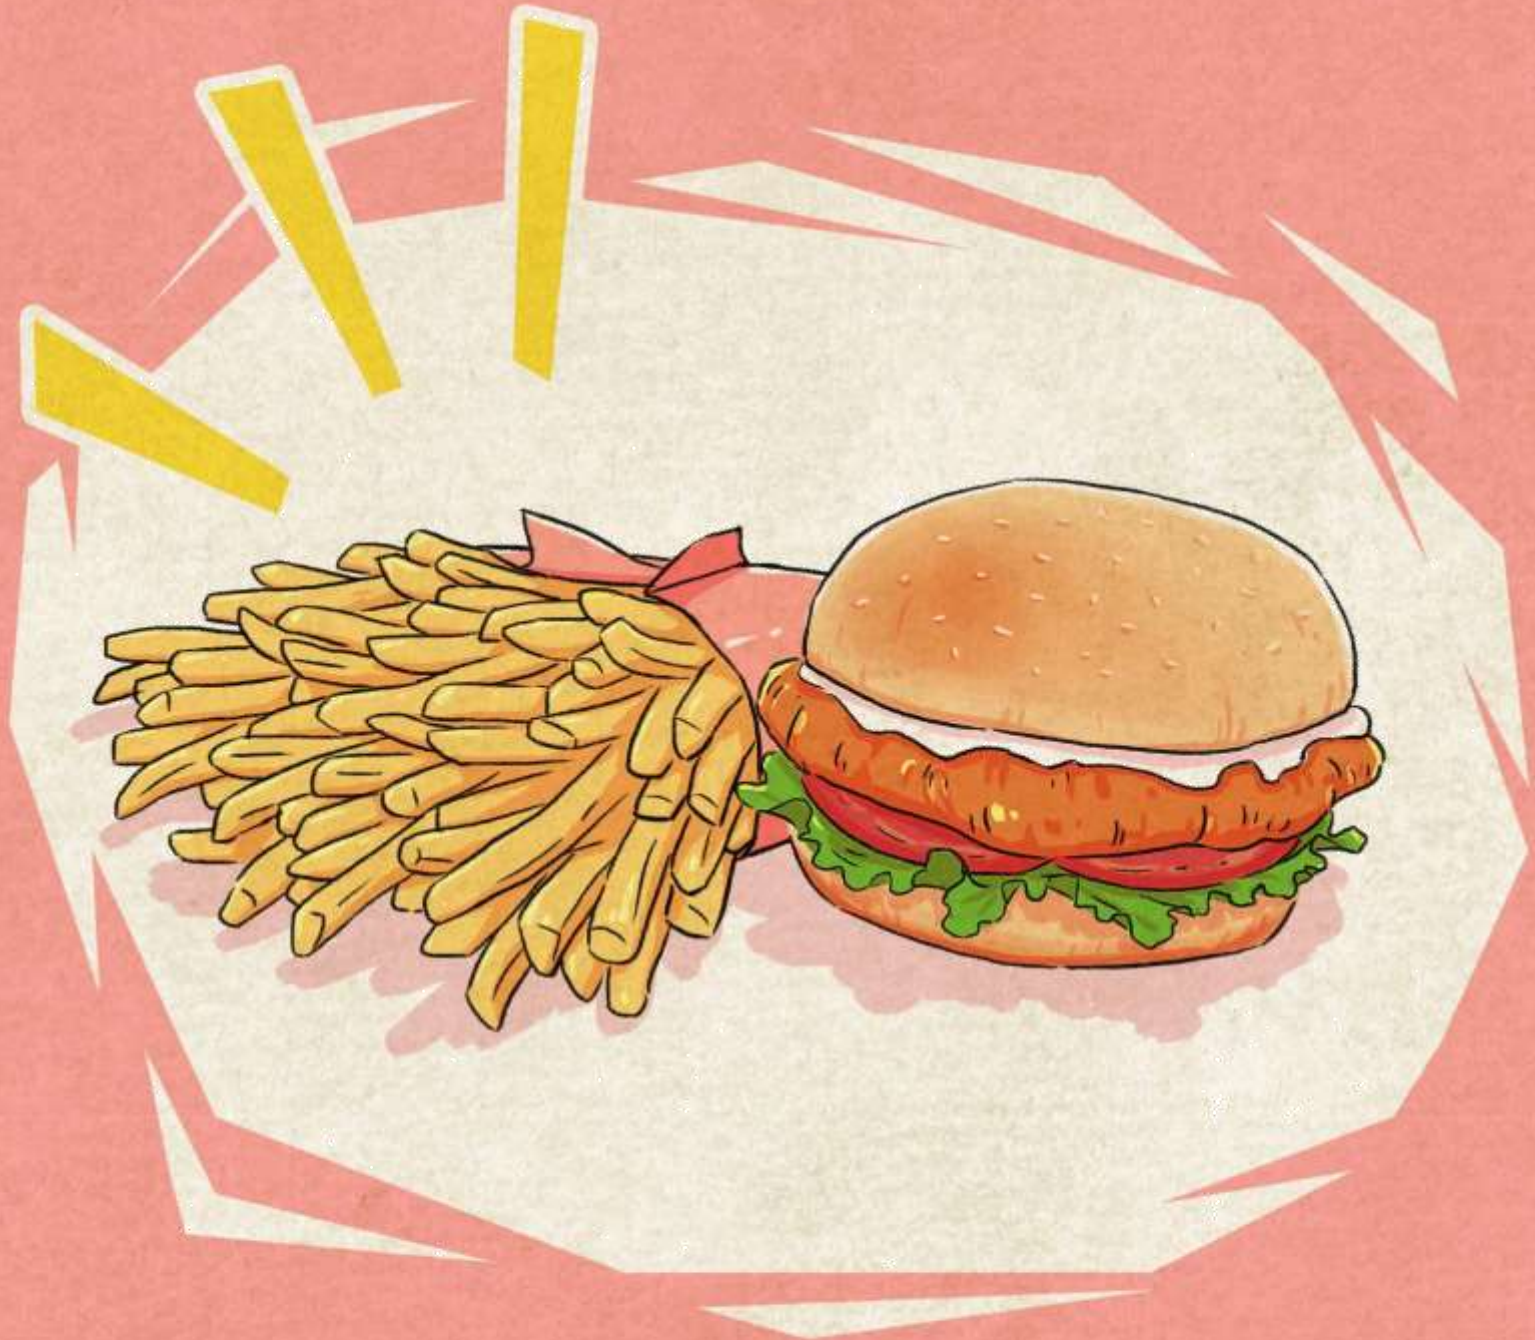

Do you want to try the fish?
Do you want to try the
chips? I see a fish burger
as well! We can try it all!

I tell the man that we will order fish, chips, and a burger. He is very happy to help. A good shop must have good staff.

The man tells me that there are different burgers. I think that I will have the cod burger. It looks very yummy.

I will order a lot of chips.
They look crunchy and
fresh. Crunchy chips are
the best. I will get him to put
chicken salt on the chips.

I will pay. This lunch is on me. I tell the man where we are sitting. He says that he will bring our food over to us soon!

Yum! We can share all of this food. I will take a bite out of the burger first. It tastes just as good as it looks!

We have eaten almost everything. Two little bits of fish to finish up. We need to make sure that we do not waste food.

It says to put the trash in the bin. Cleaning up helps the staff.

The man says thank you. I
say thank you for the food!
